VCU LOOP / SENSORS + LENGTHS

REV9 CAD · Simplified front view · All dimensions in mm

Surface TC · Luna fiber · Penetrating TC / JTC

Sensor sublabels give distance along the leg from the nearest lettered endpoint.

Blue pipework = jacket only. Red = heater clamps only. Hoses and drain hardware omitted for clarity.

* Heating-leg length is a projected span; CAD pieces overlap by 7.202 mm. Sensing tips are not defined.

PTC-X is an additional Rev9 probe with an unassigned channel. STC-01 has a 1.0455 mm CAD gap.
